COMPANY PROFILE

ELECTRICAL | INSTRUMENTATION | AUTOMATION | CONDITION MONITORING | ENERGY MANAGEMENT

WHO ARE WE?

COMPANY BACKGROUND

Ayama Projects and Enterprises (Pty) Ltd was established by young dynamic highly qualified and experienced engineers who are passionate about the engineering and construction field. The company was founded on hands on approach principles to provide world class solutions in order to maximising customer satisfaction.

WHAT WE DO

We specialise in Electrical, Automation, Instrumentation and Energy Management systems. Our scope of work involves design, supply, installation, commissioning, maintenance and building of small to medium size projects. Our company has a highly qualified and experienced team of engineers, technicians, electricians and project managers who come from different industries with the aim of providing hands on approach.

BUSINESS COMPETITIVENESS

Our company offers cost effective solutions no matter how complex the project may be. The Ayama Projects team has vast experience gained from different industries and always applies innovative approach towards every project. We work closely with our clients to better understand their expectations and provide the best possible solutions to satisfy their needs.

- ✓ **BBBEE:-** Ayama projects is 100% black youth owned and a **level 1** contributor in compliance to the government's employment equity act.
- ✓ **Reputable Directors:-** A combined 35 years of experience in the Technical, Sales and Management.
- ✓ **Turnkey Solution Offering:** - Ayama project is offering a turnkey solution to our clients making sure that we achieve success together by making them involved, feel their value and importance. We handle the job from conceptualizing, design, installation, commissioning and handover stages.

VISION

- Our vision is to become the most reputable and recommended engineering company in Africa.

MISSION STATEMENT

- Our mission is to provide hands on approach and cost effective solutions to our clients without compromising on quality.

VALUES

- Inspire innovative thinking
- Commitment and Integrity at the core of every project
- Doing every project right first time with best quality and within budget

Ayama Projects is a client focused company, willing to go the extra mile to ensure client satisfaction. Discover the unique ways in which we continue putting a smile on our clients with committed services, quality and efficiency. Ayama Projects operates as a professional unit that exceeds our clients expectations and help them achieve maximum productivity. We cover Electrical, Instrumentation, Automation, Condition Monitoring and Energy management.

ELECTRICAL (LV & MV)

- Switchgear
- Transformers
- Motors
- Electrical and Instrumentation cables and its related accessories
- Power Suppliers
- Power factor correction banks

INSTRUMENTATION

- Pressure Measurement
- Temperature Measurement
- Flow Measurement
- Level Measurement
- Positioners
- Process Protection
- Process Controllers
- Process Records
- Supplementary Components
- Communication and Software

WHAT WE DO?

AUTOMATION

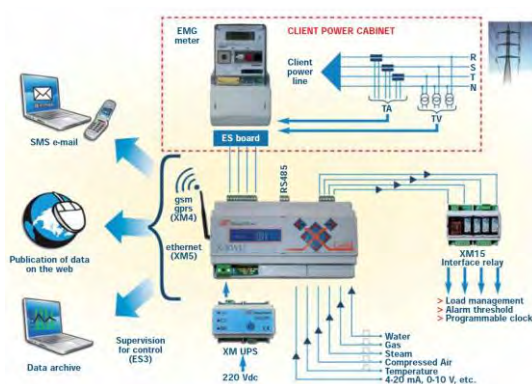

- AC & DC Variable Speed Drives (LV & MV VSD's)
- LV & MV Soft Starters
- Programmable Logic Controllers (PLC's & HMI's)
- Motor Protection Relays (MPR100)
- Drill Depth Counter
- Speed Monitor Relay
- Load Cell Relay
- Chokes
- Brake resistors

CONDITION MONITORING

ENERGY MANAGEMENT

OUR SERVICES?

To deliver a high quality solution Ayama Projects has embarked on hands on approach principle in order to meet our value proposition.

Our Service Portfolio includes but not limited to:

- ✓ **Design** – We cover cost estimates, design analysis, project scheduling, conceptual drawings, according to national & international standards and specifications.
